PRESCRIPTION GUIDELINES

This form is used to approve the use of a medical-grade Oxygen Concentrator for pet oxygen therapy at home. Please scan the QR code below or call 855-699-4366 if you have questions.

Oxygen Concentrator

Oxygen Concentrators supply a continuous flow of medical-grade oxygen (>93%) and may be used with an Oxygen Cage and/or a PureVent Pet Oxygen Mask.

Administration via Oxygen Cage

An Oxygen Cage may be used with the Oxygen Concentrator. The oxygen level in the Cage can be set between 25-55% using the included venturi pieces. Veterinarians can indicate the desired oxygen level on the prescription. The actual oxygen level may vary by +/-5 % due to venting and air exchange.

Oxygen Cages are available in the following sizes:

- Medium (24" x 18" x 18"): For pets under 25 lbs
- Large (44" x 26" x 26"): For pets under 65 lbs

Administration via Pet Oxygen Mask

A PureVent Pet Oxygen Mask may be purchased with the Oxygen Concentrator. Veterinarians can indicate a flow rate (1-10 LPM) for administration by Mask.

Ordering Process

Submit this form by fax or email:

- Email: info@pawprintoxygen.com
- Fax: 855-699-3366

Pawprint Oxygen is open Monday-Friday from 9am-5pm EST. If you are submitting this form within normal business hours, pet owners can expect a call from our team within 1 hour to complete their order. If you are submitting this form outside of normal business hours, pet owners can expect a call the next business day.

Pawprint Oxygen handles all billing, shipping, and equipment education directly with the client for home delivery orders.

If this request is urgent, requires special instructions, or to provide verbal approval, please call our team at 855-699-4366.

You can order Pawprint Oxygen products for your practice from Vetcove.com, MWI Animal Health, Patterson, Midwest, or by calling us directly at (855) 699-4366.
